

Don't have the time to establish and maintain your new or existing lawn? Turf Force Does!

Along with being able to Supply and Lay your lawn, Turf Force offers comprehensive establishment and maintenance programs that will ensure your new turf will be lush and green in no time. We also have the know-how and equipment to be able to bring your existing lawn back to life. Select your option below.

OPTION 1

New Lawn Establishment

The First 3 months are the most critical when it comes to the survival and the successful establishment of any new lawn. New turf is at its most vulnerable when it's first installed as the roots of the turf have not yet established properly. To ensure your lawns success consider all, or just some of the following establishment preferences (depending on your needs and budget) to fit into a 1, 2 or 3 month term.

Options in an Establishment program?

- Watering
- Mowing
- Fertilising
- Pest Prevention
- Lawn Monitoring

How to proceed with an establishment program.

Before providing a quote one of our friendly sales members will ask if you would like an establishment program to be included with the installation of your new turf.

They will itemize each preference for you allowing you to pick and choose the right program that suits your needs and budget.

If you initially said no to an establishment / maintenance program but have since changed your mind please call or email the relevant sales representative or contact our office on 1800 367 472. Remember all quotes are free with no obligation.

OPTION 2

New or Existing Lawn Ongoing Maintenance

Turf Force also provides ongoing lawn maintenance packages. The amount of time that these programs run for is entirely up to you. Depending on your requirements we can provide a one off lawn revitalization package or a monthly ongoing program. The choice is yours!

Options in a Maintenance program?

- Watering
- Mowing
- Fertilising
- Pest, Disease and Weed Eradication
- Thatch removal
- Aeration
- Top Dressing
- Lawn Monitoring

How to proceed with a maintenance program.

An ongoing maintenance program can be included in your initial quote or alternatively call the Turf Force office and request one of our staff members to visit and provide a free no obligation quote.

How much will it potentially cost?

Each area is different in its own unique way. That's why we'd prefer to provide you with a free no obligation quote.

For your convenience Turf Force offers payment plan options on a fortnightly or monthly basis with No Interest Ever!*
